Meet the Hemostasis experts IX

Welcome Message

Dear Friends, Students and Colleagues,

It is a great pleasure to welcome you to the **IX "MEET THE HEMOSTASIS EXPERTS"** meeting which takes place every year under the auspices of the Medical School of the University of Athens and the M.Sc Program "Thrombosis, Bleeding and Transfusion Medicine".

This year the conference is scheduled for October 16 2025 in Athens. The main topics that will be presented and discussed with experts will focus on the pivotal role of the endothelium in hemostasis and specific clinical entities like cancer, stem cell transplantation and myeloproliferative diseases. State of the art technologies, new insights in pathophysiology, as well as clinical applications in several clinical entities, from bench to bedside will be presented by key opinion leaders in the field of thrombosis and hemostasis.

We aim to bring together once again researchers, postgraduate students, as well as specialized health providers, so that we will all have the chance to present the most recent achievements, interact, establish fruitful collaborations and networks and present state of the art data and technology innovations. The city of Athens provides a friendly, relaxing and stimulating environment.

We hope that you will see old friends and colleagues, meet new ones and enjoy your stay in Athens.
